RE: Site Inspection, Dick Shumway, Factory Butte Project, S/055/006, Wayne County, Utah

Date of Inspection: September 20, 2000
Time of Inspection: 1500 - 1520
Conditions: Clear and Warm
Participants: John Blake, SITLA; Tony Gallegos, DOGM

Purpose of Inspection: To examine the site while in the area

This site was briefly examined while in the project area. A small excavation was cut into a hill side. We examined Dick Shumway's site while in the general project area. At the Shumway site, there was a small cut excavation into the hill with the excavated material placed in a pile. The site disturbance is very minimal at this time, less than one tenth of an acre.

Photographs of the site were taken to document the current conditions. The Division has no concerns with this site at this time.
